InDesign  
Illustrator  
Photoshop  
After Effects  
Premier  
Microsoft Office

## WORKING AND EDUCATION BACKGROUND

## 3D AND BRANDING DESIGNER

---

Award-winning multidisciplinary designer; specialising in 3D, experiential design and branding.

I joined brand experience agency OrangeDoor after graduating from Ravensbourne and over the past four years, I've gained a wealth of varied experience building upon my passion for design strategy. I have been integral to some incredible pieces of work, seeing them through from start to finish, even working as the design lead on a number of projects.

I enjoy finding new and innovative ways to tackle a project. Giving me the opportunity to learn skills and experiences.

I'm now looking forward my next adventure; to develop my skills and broaden my portfolio of brands.

---
